tiling vector dataset tiles swissimage arcsde parks 112015 flight years 2008 2011 2012 2013 swiss parks network

Summary

tiling (vector dataset) with the tile division of the swissimage mosaic published on ArcSDE parcs in november 2015 (LV95).

Description

Tiling (vector dataset) with the tile division of the swissimage mosaic published on ArcSDE parcs in novemer2015 (LV95). Generated by the Swiss Parks Network from tilings (vector datasets) provided by swisstopo.

The tiling vector dataset is a composition of different tilings delivered each by swisstopo together with the delivery of the swissimage raster tiles. Basis of the tiling swissimage 2013are tiling deliveries from swisstopo. For swissimage tiles with more than one delivery (more than one flight year), only the latest tile is integrated into the mosaic. juni12_uebrig_nach_juli13_nov13_juli14_jan15_integrieren_arcsde, dez12_uebrig_nach_juli13_nov13_juli14_jan15_integrieren_arcsde, juli13_uebrig_nach_nov13_juli14_jan15_integrieren_arcsde, nov13_uebrig_nach_juli14_jan15_integrieren_arcsde, swissimage_statusgrid_juli14_jan2015

The tiles of the swissimage published in november 2015have the following flight years: 2008 2011 2012 2013.

The single features show the boundaries of the swissimage tiles. In the table can be found information about the swissimage tiles, whereupon the flight years of the swissimage tiles is the most important information.
