Dominik Siegrist, Norbert Weixlbaumer**

Parks of the future – Which future for parks in Europe?

Page 13

Section A

Approaches to coping with challenges of global and regional change

Grazia Brunetta

The resilience concept and spatial planning
in European protected areas development

Facing the challenges of change

Page 25

Claudia Carter, Mark Reed

Parks and climate change:
Challenges to the protected area landscape
and emerging policy and management responses

Page 37

Emma Salizzoni

Protected areas confronted by urbanization processes

Challenges and operational perspectives

Page 47

Susanne Stoll-Kleemann

Nature parks in Germany facing societal change
Experiences from three nature parks in the Federal State of Brandenburg
Page 59

Angioletta Voghera, Gabriella Negrini

Parks and landscape: Land use plan experimentations
for biodiversity
Page 71

Thomas Hammer, Dominik Siegrist

Regional change management and collaborative
regional governance as approaches tackling regional and
global change in parks?
Lessons learned from the Swiss model of parks of national significance
Page 85

Samuel Depraz

An innovative or adaptive management model of protected areas?
French regional nature parks and climate change
Page 101

Ulli Vilsmaier

Other spaces: Parks as societal mirrors
Page 113

Section B

Case studies and good examples of coping with global and regional change

Andreas Voth

Recent trends and future challenges of protected areas
in southern Spain
Page 125

Peter Fredman, Jan Vidar Haukeland

New challenges for managing sustainable tourism
in protected areas
A Scandinavian perspective
Page 137

Nicola Thompson, Guy Garrod

Sustainable development in England's national parks
Case studies in responding to socioeconomic change

Page 149

Catherine Kelly

A new British biosphere: Brighton – Transecting city,
countryside and coast

Page 161

Martin Heintel, Norbert Weixlbaumer

Protected areas
at the interface of political systems
*Regional governance arrangements using the example
of the Austro-Hungarian Nature Park Írottkő-Geschriebenstein*

Page 177

Volker Scherfose

What role can parks play for sustainable
development in Germany?

Page 191

Natalya Yakusheva

Socio-demographic changes in and around protected areas
and management responses
Case studies from the Carpathians

Page 211

Julius Arnegger, Til Dieterich

Protected area governance in Azerbaijan

Page 225

Section C

Syntheses – Challenges of coping with regional and global change

The role of science in governing and managing
the parks of the future.

Considerations by *Thomas Scheurer*, Scientific Research Manager

Page 241

Comments by *Alois Lang*,
Park Manager at Neusiedler See-Seewinkel National Park
Page 247

A perspective of *Lawrence S. Hamilton*,
Senior Advisor at IUCN World Commission on Protected Areas
Page 257

Parks of the future –
A view of *Carol Ritchie*,
Executive Director of the EUROPARC Federation
Page 259

Thomas Hammer, Ingo Mose,
Dominik Siegrist, Norbert Weixlbaumer
Parks challenging regional and global change –
An attempt at a synthesis
