

dtm10

File Geodatabase Raster Dataset

Tags

DTM10, Digital Terrain Model (DTM10), elevation

Summary

DTM10 is meant for the use in spatial cell-based spread modeling of natural processes such as the migration of animals or the spread of forest fires. It is also the basis of exposition and slope data.

Description

The digital Terrain Model DTM10 is a raster data set containing altitude values of the Swiss National Park in meters.
